

€ 250,-

FARA 1" Grenade nozzles with ceramic inserts

Grenade nozzle FARA 1" (Ø87 x 142 - 3,6Kg). For high thrust and effective cleaning jobs. Heat treated alloy steel for durability, yellow zinc plating for corrosion resistance. Replaceable ceramic inserts. A deviator set inside the nozzle maximizes flow efficiency and reduces pressure drop.

Applications:

general cleaning, heavy debris, sediment deposits, sand, silt, gravel, and heavy sludge removal.

CELLINA standard sewer 1/2 " nozzle

Maximum pressure 250 bar
Small nozzles (conical or round head, 25° and 35° jet angle), with or without front jet.

Applications:

general cleaning,
blockage penetrating, drains.
